GiveCampus and Raiser's Edge

Online gift processing made easy

At the heart of every great development office is an all-star Advancement Services team that ensures online gift processing (and everything else) runs smoothly. GiveCampus has partnered with Importacular to integrate seamlessly with Raiser's Edge and Raiser's Edge NXT, delivering a gift data import and review process that Advancement teams love.

Integration features

- **Comprehensive data set**
  Get everything you need for gift processing, receipting, and deposit reconciliation.

- **Batch import and review**
  Commit data to record using the same batch import and review process your team follows today.

- **Configurable mapping**
  Easily create custom mapping templates based on your school's specific use of Raiser's Edge fields.

- **Automated data validation**
  Set up rules to parse and transform data for a clean batch every time.

- **Intelligent matching**
  Use unique constituent IDs and other matching criteria from Raiser's Edge for easy reconciliation.

- **Free import/export tool**
  Get free, self-service access to the Importacular plugin, an import and export tool for Raiser's Edge and Raiser's Edge NXT. Low-cost support and training packages are also available for purchase.

Dan Snyder
Director of Advancement Services
Bennington College

"With other tools, you're going to have to pay for developer hours to get this set up … **this is just so much faster.** You can just select your data, then your control report, and you're at batch approval very quickly."

BENNINGTON COLLEGE

GIVECAMPUS

How it works

At a glance

1. **Add the Importacular plugin** to your Raiser's Edge account.

2. **Enter and save your GiveCampus API credentials** so data can be retrieved automatically.

3. **Configure preferred settings** for field mapping and data validation rules.

4. **Schedule the frequency** of your automated reporting.

5. **Sit back and relax** until the next batch of gift data arrives.

Ready for a technical deep dive?

Visit the **Importacular for GiveCampus** site for more details about how Importacular works and what kind of data you can import. You'll also find links to additional resources, including a user guide, video tutorials, FAQs, and more.

There's even a short video walkthrough that explains, step by step, how to import data from GiveCampus into Raiser's Edge using Importacular.

For information and pricing on Importacular support and training packages, please refer to the **Importacular Fact Sheet**.
